Principles of accounting - NTSLibrary

business Therefore it relates to the internal control and management of resources (for example, by the directors, management or employees of a company) Management accounting statements may be more detailed than those prepared for external users, and do not normally need to meet any

FINANCIAL ACCOUNTING : MEANING, NATURE AND ROLE OF ...

a specified period, to show financial condition of the business on a particular date and to have control over the firm's property Such accounting records are required to be maintained to measure the income of the business and communicate the information so that it may be used by managers, owners and other interested parties

FUNDAMENTALS OF ACCOUNTING

The business activities require resources (which are limited & have multiple uses) primarily in terms of material, labour, machineries, factories and other services The success of business depends on how efficiently and effectively these resources are managed Therefore, there is a need to ensure the businessman tracks the use of these resources
